- Darryl Sande, RPF
- Senior Planner and Operations Manager, Forsite Consultants, PA
- Contract General Manager to Kaskew Forestry Products LP

- MLBV was formed in 2010 to act as the business arm of Montreal Lake Cree Nation (MLCN).
- MLBV is governed by a Board of Directors that are independent of MLCN.

- Established in April 2011, Kaskew Forestry
   Products LP (Kaskew) is wholly owned by MLBV.
- Kaskew manages and operates a wood allocation within the PA FMA, including harvesting and supplying wood fibre to mills in Saskatchewan.
- Kaskew is looking to create added value opportunities with their wood supply.

## Sakâw Askiy Management Inc.

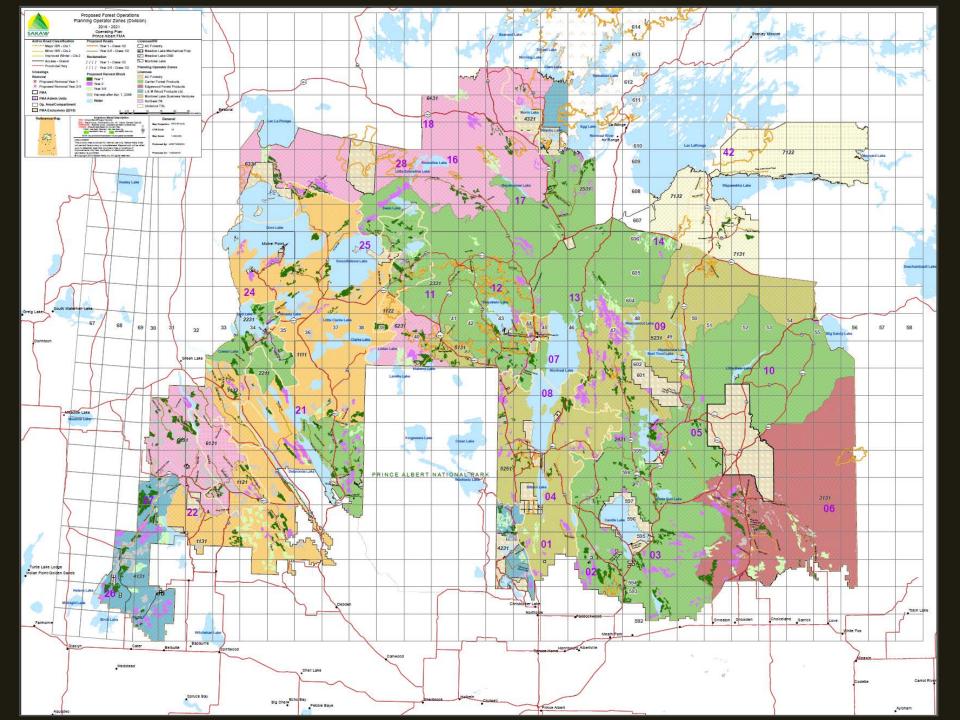

- October 5, 2005 Weyerhaeuser announces closure of PA Pulpmill
- Mid April 2006 Big River and Wapawekka sawmills closed.
- 2007 collapse of housing market
- November 26, 2009 Government announces allocation of wood from the PA FMA to industry, first nations and communities.
- December 2009 Sakâw Askiy Management Inc. is formed to take on the assignment of the FMA from Weyerhaeuser / Domtar
- FMA assigned to Sakâw Askiy effective November 1, 2010

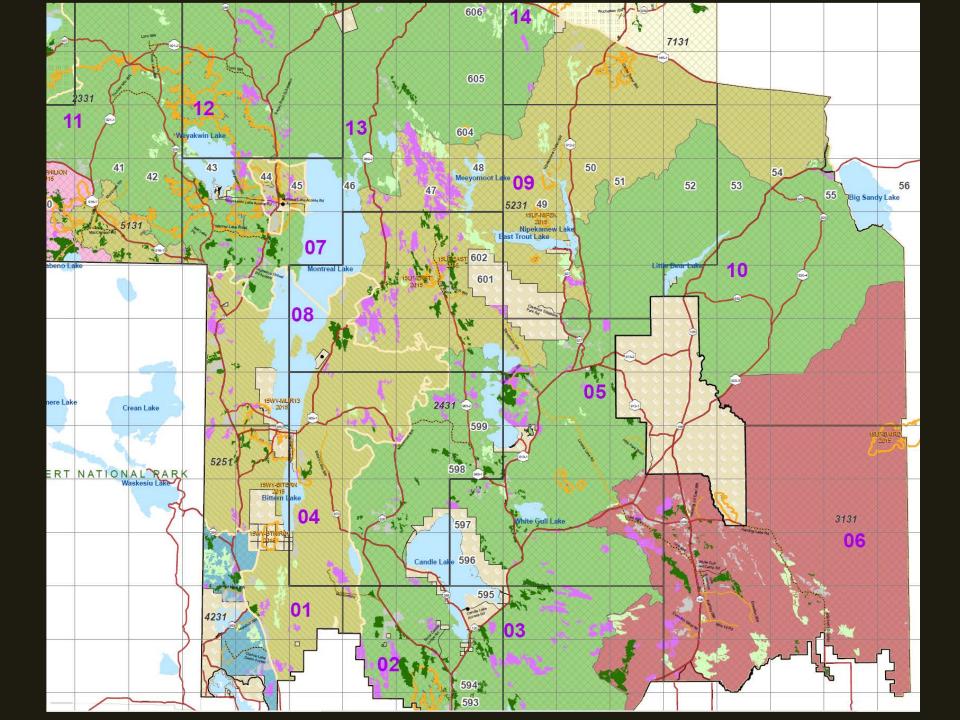

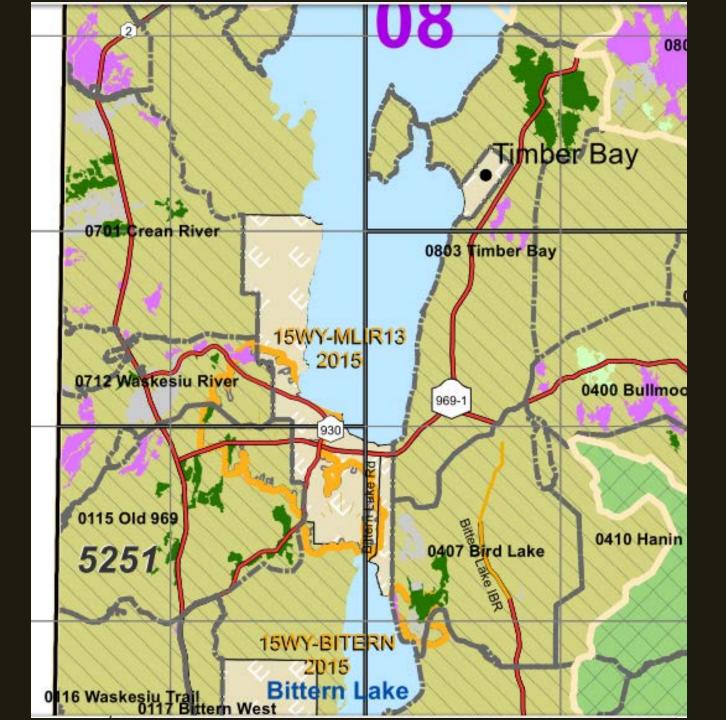

# Sakâw Askiy Shareholders

#### 8 partners:

- 6 facility shareholders: Carrier, Meadow Lake OSB, Norsask, Meadow Lake Mechanical Pulp, L&M, and Edgewood
- 2 First Nation shareholders: AC Forestry, Montreal Lake Business Ventures
- Province provides timber allocations to all 8 parties
- Aboriginal interests granted 44% of total allocation (AC Forestry, MLBV, Norsask, L&M)

## Certified! Why?

- Provide MLBV and MLCN Shareholders assurances of sustainability.
- Customer Mills required certified fibre.
- SFI provided a standard that was aligned with business objectives and existing systems.
- Other Sakâw Askiy Shareholders were registering to SFI and we were looking for efficiencies and economies of scale.
